E-Day Lesson #3

Grade 5 **Subject Math Mrs. Ward SVES**
Learning Target(s) / Objective(s):

1. Students will practice math skills adapted to their academic level
2. Students will show mastery of these skills through the Peak12 Aventa Website
- 3.

Materials Needed: Computer, pencil paper

Lesson Overview/Procedures: Students will log onto their Aventa learning site. They will click onto the math shell. Students will do the next unchecked lesson in which is assigned to them. They will complete the study, practice and mastery portions of the lesson (just one lesson). They should strive for 80% mastery.

Assignment: Use the aventa learning link to log in. You will notice that it is now Fuel learning. Your current peak12/blackboard login will work

- All E-Day assignments are due 2 weeks from when they are initially assigned.
- Teachers are designing lessons that have meaningful assignments for students. These assignments can be an extension of a current lesson, a lesson that targets a specific skill, a long-term focus for a particular class, and/or preparation for state testing.
- While the majority of the work assigned during the E-Day will be completed outside of class, teachers will incorporate some time during the two week window to support student needs with completion of the assignments.
